**Re : Services rendered by Aztek Cleaning Services**

This letter serves to confirm that Aztek Cleaning Services provided a cleaning service to our offices which included deep cleaning our entire floor carpet area and all upholstered furniture. The service was done very professionally and we were very pleased with the outcome. The time frame in which the job was supposed to be completed was kept and in fact exceeded as extra hours were put in on their own accord to complete the job faster to allow for our office to dry in time for our staff to return.

I would recommend this company for future cleaning jobs with us and believe their pricing is very affordable and their offering of a very high standard.
